C3DIC	15"	24 1/2"	18"

Cutout Dimensions for Island			
Model No.	Height	Width	Depth
C3DIC	12"	23 1/4"	17 1/4"

Install Notes:

- ✓ The CDIC is designed to hang from your counter top, with no support necessary underneath.
- ✓ It comes with a drain located in the bottom middle of the cooler, that has a 5/8" ID and a 3/4" OD that you can connect a drain hose to.
 - If your cabinet/island contains a french drain (or other feature for allowing water to escape), then you can also allow the CDIC to drain into (or through) your island. Depending on your building material, this may or may not be an option.
 - A drain plug is also included with the cabinet to keep any ice or water from leaking when in use
- ✓ When the CDIC is located in an area with humidity and ice is placed inside, the cooler can "sweat" on the exterior of the box. Be aware that even with the drain in, this sweat could drop into your cabinet.
