

EUROKAST HARDSCAPE COMPANY

GFRC & Verdi-Crete Information Product Care Guide

We want to thank you for purchasing your Eurokast Hardscape Products, Inc. GFRC product(s). We have created this information and care guide to help you gain some understanding and to aid you in the care of your Eurokast Products.

Our products are made from some of the highest quality materials available. Eurokast products are manufactured using non-combustible materials; therefore, they will not burn and there is zero flame spread. Eurokast's uses our exclusive "Verdi-Crete" GFRC blend to give variation in color and texture, and to replicate natural stone and artisan plaster finishes.

All Eurokast Hardscape products are manufactured using an ASTM approved supplier recommended hand lay up, hollow core system. This system eliminates the effects of thermal shock and bimetallic movement. Verdi-Crete GFRC is our own exclusive portland cement mixture. Verdi-Crete is very durable and strong and possesses stain resistant properties. However, we recommend the installer seal Eurokast products after installation. It is very important to note that the product comes from the factory stain resistant, not stain proof.

We recommend keeping you Eurokast products clean and to seal your Eurokast products at least once every year, very similar to sealing the grout on your tile. This will aid in maintaining stain resistance. Use a type of sealer that is designed to penetrate concrete or stone products. Make sure to read and to follow all the instructions. In the event that something is spilled on the Eurokast products, we recommend as follows:

Beverage Drinks:

Using a clean cloth, dab the liquid to soak up the excess only, do not scrub. Then flush the area with clean fresh water. If more cleaning is needed, gently clean with a non-detergent cleaning solution.

Soils, dust or dirt:

First use a vacuum to remove any of the debris on the Eurokast products. If more cleaning is necessary gently clean with a non-detergent cleaning solution.

Eurokast Hardscape Products, Inc. has taken the greatest care in manufacturing the highest quality products possible. Do to the characteristics of precast products, Eurokast Hardscape Products, Inc. assumes no responsibility for the cleaning and care of your Eurokast Hardscape and or Verdi-Crete GFRC products.
