

# choosing your *Infratech system.*

**STEP 1**

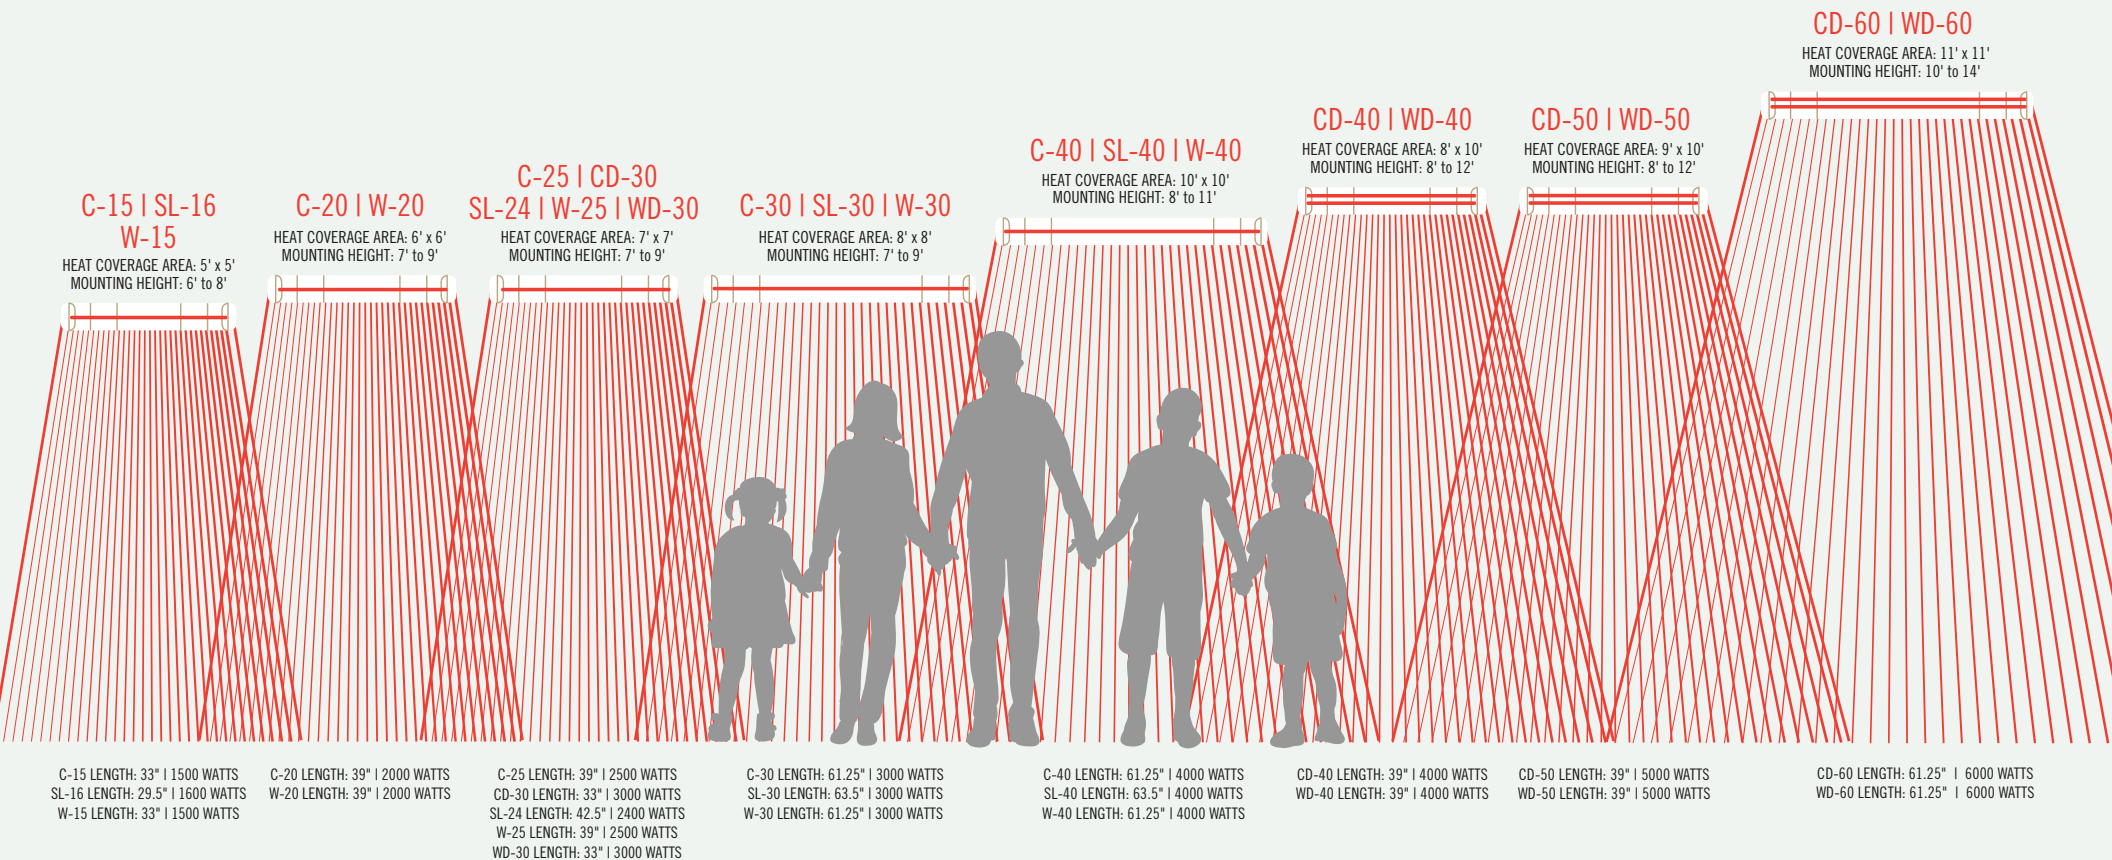

Measure the dimensions and mounting heights of the area you want to heat.

**STEP 2**

Select the heater(s) that will work both functionally and aesthetically for your space. Consider heater size, quantity, color and mounting options.

**STEP 3**

Choose the control option that works best for your space, needs and budget.

**C=C-SERIES SINGLE ELEMENT HEATERS (WIDTH: 8.19")**  
**CD=CD-SERIES DUAL ELEMENT HEATERS (WIDTH: 8.19")**

**SL=SLIMLINE SINGLE ELEMENT HEATERS (WIDTH: 4.75")**

**W=W-SERIES SINGLE ELEMENT HEATERS (WIDTH: 8.19")**  
**WD=WD-SERIES DUAL ELEMENT HEATERS (WIDTH: 8.19")**

Need assistance? We can walk you through the process of selecting the Infratech heating system that's right for you. To learn more, or find a distributor near you, please contact us.

Note: Indoor or well-protected environments will generally exceed average coverage. Heaters may provide less than average coverage in extremely cold or windy conditions.
