ASSEMBLY AND INSTALLATION INSTRUCTIONS

A flat surface is recommended for assembly. It is also easiest if buttonheads are not tightened until your tool set is assembled.

- 1) Place the Arch Upright in the inside of the Base, matching holes. Attach with the (2) Buttonheads
- 2) Hang the tools on the attached toolbar and your Arch Tool Set is ready to use!
- 3) All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
