

BATTERY BACKUP / RESET SWITCH RELOCATION KIT

MI-USBC-RELO

Gas Insert Models: RUBY25I / 30I / 35I, RUBYP30I / 35I,
 SUPREME-I25 / -I30 / -I35-IFT, SUPREME-I25 / -I30 / -I35-BIR

SUPREMEX-I30 / -I35, TRILLIANT 25I / 30I / 35I, COSMO-I25 / -I30 / -I35-IFT

Installation Instructions

Leave this manual with party responsible for use and operation.

CAUTION! Risk of Cuts, Abrasions or Flying Debris. Wear protective gloves and safety glasses during installation. Sheet metal edges are sharp.

CAUTION! Do not install damaged components.

WARNING! Risk of Fire! Combustible materials *MUST NOT* overlap or be placed under a surround.

WARNING! Risk of Fire! *DO NOT* apply combustible materials beyond the minimum clearances. Comply with all minimum clearances to combustibles as specified. Overlapping materials could ignite and will interfere with proper operation of decorative fronts.

Introduction

This kit is used to move the USB-C plug and reset switch from the side of the surround to a location underneath the firebox. Installation of this kit must be performed by a Qualified Service Technician.

Tools

- Drill with 1/4 inch hex driver
- Pliers

Contents:

- (1) Reset Switch Mounting Bracket (2532-299)
- (1) USB-C Plug Mounting Bracket (2532-301)
- (1) Self-Drilling Screw

Verify and remove contents from packaging before beginning installation.

Preparation

CAUTION! Risk of Burns!

- The fireplace should be turned off and cooled before kit is installed.
- Shut off gas supply.

Installation Instructions

1. Remove vanity panel, decorative front and firebox glass assembly if previously installed.
2. Remove reset switch from side of surround.
3. Insert the reset switch into the reset switch mounting bracket until it locks into place.
4. Use the self-drilling screw to attach the reset switch bracket to the center standoff. The bracket should sit flat on the base of the appliance. Center the hole in the bracket on the center of the standoff. See Figure 1.

Figure 1 Reset Switch Bracket Location

5. Disconnect the 40 inch wire harness from the "BATT (+)" and "BATT (-)" wires coming out of the ECM. Remove the 40 inch wire harness from the unit and discard.
6. Slide the component tray and component heat shield out from underneath the firebox. Remove component heat shield. See Figure 2.

Figure 2 Component Tray and Component Heat Shield

7. Remove USB-C bracket from kit manual bag and bend it as shown in Figure 3.
8. Remove the USB-C plug from the surround and insert it into the USB-C bracket. Attach the USB-C bracket to the component tray by placing it in the slot as noted in Figure 4.
9. Connect the USB-C wire to the "BATT (+)" and "BATT (-)" wires on the ECM.

10. Locate the reset switch wire on the outer wrap on the right side of the appliance and feed it through the grommet into the appliance. Move only enough wire back through to reach the rocker switch location. Attach to the rocker switch. Leave the excess wire outside of the appliance. See Figure 5.

11. Reinstall the component heat shield on the component tray and slide the complete assembly back into position underneath the firebox as shown in Figure 6.
